CORTEC CORPORATION **ROHS**
 VpCI®-126 FR

DESCRIPTION
 VpCI-126 FR is a water-soluble, non-toxic, non-hazardous, and non-flammable corrosion inhibitor. It is designed for use in aqueous environments where corrosion is a concern. It provides long-term protection for steel and aluminum components.

KEY PERFORMANCE INDICATORS
 VpCI-126 FR offers superior performance in terms of corrosion inhibition, ease of application, and environmental safety. It is suitable for use in a wide range of industrial and marine applications.

APPLICATIONS
 VpCI-126 FR is used in various industrial settings, including power plants, chemical processing, and marine environments. It is particularly effective in protecting steel and aluminum components from corrosion.

ADVANTAGES
 VpCI-126 FR is a water-soluble, non-toxic, non-hazardous, and non-flammable corrosion inhibitor. It is designed for use in aqueous environments where corrosion is a concern. It provides long-term protection for steel and aluminum components.

FEATURES
 VpCI-126 FR is a water-soluble, non-toxic, non-hazardous, and non-flammable corrosion inhibitor. It is designed for use in aqueous environments where corrosion is a concern. It provides long-term protection for steel and aluminum components.
